ADMINISTRATIVE EXPERIENCE

Assistant Principal, Burkholder Middle School, February 2007-2016

I have supervised and/or overseen nearly every aspect of a middle school. Additionally, I served on the Best Practices Cadre for the Curriculum Division to mentor new Curriculum Administrators for four years. I found great satisfaction sharing my best practice strategies to assist other administrators new to the AP position. I am approachable and knowledgeable and am proud to have provided additional assistance beyond the mentoring sessions as I was a point of contact for many administrators who sought out support and guidance in all areas associated with the Assistant Principal's position.

Dean of Students, Mannion Middle School, May, 2005 – February, 2007

While serving as Dean of Students, I excelled at every aspect of my job and went above and beyond to create a safe and secure school climate. In addition to my duties as a Dean, I implemented an antibullying program, the "Very Nice Person" program and held Anti-bullying and Character-ed Assemblies. Also, I developed student and staff recognition programs and facilitated staff trainings. I served on multiple committees and was an advocate for the English Language Learner program.

Project Facilitator K-12 Science, CPDD, 2003-2005

While serving as a Project Facilitator, I worked with K-12 teachers to assist them with their delivery of Best-Practices in science. I facilitated numerous trainings, staff development, and led cadres to revise the middle school curriculum as well as Secondary DC Meetings, Science Fair Workshops, Safety in the Science Classroom, Accelerated Middle School Science Activities, Tutoring for Proficiency-High School Science, Middle School Science Benchmark Assessments, Elementary Science Task Force- Revised K-5 CEFs, Unwrapping the K-5 NV State Science Standards-Align K-5 CEFs to NV State Science Standards, and K-5 Science and Technology Handbook

TEACHING EXPERIENCE

Teacher Thurman White Middle School, 1994-2003

Grade 8 Physical Science Teacher, Grade 6 Gifted and Talented Teacher, Science Department Chairperson, Science Fair Coordinator, Future Cities Coordinator, Odyssey of the Mind Coach, Young Astronaut Advisor

Teacher John C. Fremont Jr. High School, 1986-1994
